

Justin Neal Bio

After graduating summa cum laude with a degree in Economics from Berry College, Justin Neal launched his financial services enterprise in 2002 with Northwestern Mutual. Today, Justin leads a team of 6 as they serve families involved in business ownership, corporate leadership and consulting. Justin compensates for his low self-esteem by passing tests and has accumulated designations including CFP, CLU, ChFC, CASL, and RIPC. He believes that even leisure should be high performance and has completed 10 marathons, 3 Ironman Triathlons and a 100 mile trail run event.

Justin stays very involved in the community. Volunteer efforts include: current Board Member for the Atlanta Chapter of NAIFA and the TeenPact Leadership Program, and is a former Board Member for Georgia's Department of Human Resources; Vice Chairman of the State of Georgia's Board for the Department of Behavioral Health and Developmental Disabilities.

Justin and his wife met at Berry College where he rode a unicycle to class. He remains a competent, although unpracticed, juggler so that he can join the circus if the financial thing does not work out.

Today, Lindsey and Justin enjoy dancing and exploring the world with their 3 boys.
